

Write these extra questions in fair copy

LESSON 2

COMPUTER MEMORY

EXTRA QUESTIONS

Q.1. Write full form of the following

DVD, CD-RW,EEPROM ,USB

ANS 1 .DVD – Digital Versatile Disc

CD-RW- Compact disc rewritable

EEPROM- Electrically Erasable Programmable Read-Only Memory

USB- Universal Serial Bus

Q.2. Differentiate between PRIMARY MEMORY and SECONDARY MEMORY

ANS 2 differences between primary memory and secondary memory are as follows:-

PRIMARY MEMORY	SECONDARY MEMORY
Primary memory is a volatile memory	secondary memory is a non-volatile memory.
Primary memory's capacity is always smaller	secondary memory's capacity is larger
Primary memory is an internal memory	secondary memory is an external memory .
Primary memory is costlier	Secondary memory is cheaper

Q.3. . Differentiate between RAM and ROM

ANS.3. Differences between RAM and ROM are as follows:-

RAM	ROM
It is a read-write memory.	It is read only memory.
Data in RAM can be modified.	Data in ROM can not be modified.
RAM is a costlier memory.	ROM is comparatively cheaper than RAM.
It is a volatile memory.	It is a nonvolatile memory.
